ENGINEERING STATEMENT
IN SUPPORT OF APPLICATION FOR LPTV CONSTRUCTION PERMIT

IN RE:
MINOR CHANGE TO LICENSED FACILITY
K57CV, FCC ID 19195
FCC FILE NUMBER BLTTL-19921210JH
BROADCAST DEVELOPMENT CORPORATION

1. The within application is filed as a minor change to licensed facility. It seeks displacement relief to change from from an out-of-core channel (57) to an in-core channel (32), a change of ERP and of antenna pattern. It remains at its presently licensed transmitter location.

2. The following is submitted as an OET 69 Longley-Rice study exhibit for the above-captioned application.

NOTE: The study parameters which produced these results are as follows:

Signal Resolution 1.0 km² and Longley-Rice Terrain Profile Interval 0.1 km.

a. The stations which exhibit contour overlap or short spacing and thus must be studied are:		
CALLSIGN AND LOCATION	FCC FILE NUMBER	INTERFERENCE FROM PROPOSAL
KION-DT AP, Monterey, CA	BPCDT-19991201AAR	NONE or less than 0.5%
KION-DT, Monterey, CA	BLCDT-20030604ACO	NONE or less than 0.5%
