In re: Edgewater Broadcasting, Inc.
New FM Translator, Green Valley, AZ
Facility ID No. 151312
File No. BNPFT-20030826AKM

Dear Applicant:

This refers to the captioned application for a new FM Translator facility at Green Valley, AZ.

Our study reveals that the application violates Section 74.1204(a) of the Commission's Rules¹ with respect to the authorized facilities of co-channel Station KKYZ, Corona De Tucson, AZ, (BPH-20021218ANF). Section 74.1204(a) states that an application for an FM translator station will not be accepted if the proposed operation would involve prohibited overlap of predicted field strength contours with any other authorized station. The proposed 40 dBu interference contour overlaps KKYZ's 60 dBu protected contour. This violation was not addressed in the application. Accordingly, the application will be dismissed.

In light of the above violation, Application BNPFT-20030826AKM is unacceptable for filing pursuant to Section 73.3566 of the Commission's Rules² and IS HEREBY DISMISSED. This action is taken pursuant to Section 0.283 of the Commission's Rules.³

Sincerely,

James D. Bradshaw
Deputy Chief
Audio Division
Media Bureau
