Re: W224CE, Facility No. 151732
W269CU, Facility No. 138510

Dear Ms. Dortch:

Radio World, Inc. ("Radio World"), proposed assignee of the above-referenced station, by its attorney, hereby requests tolling with respect to the construction deadline for the above-referenced construction permit, pursuant to 47 C.F.R. §1.3 of the Commission's rules in accordance with footnote 36 of AM Revitalization First Report and Order, released on October 23, 2015 (1st R&O), and the Modification Window Procedures Public Notice released on October 26, 2015 (Notice). That footnote states that under certain circumstances, a waiver of an Auction 83 FM translator construction deadline is presumptively in the public interest for applicants that will be participating in one of the modification windows. Since the Release of the Report and Order, the FCC has announced two filing windows within which existing FM translator stations and permits may be designated by eligible AM stations to provide supplemental rebroadcast coverage to such stations.

W224CE will be associated with Station WZHR(AM). Station W269CU will be associated with Station WTAN(AM). W269CU is currently scheduled to expire on December 16, 2016. W224CE is currently scheduled to expire on April 17, 2016.

If there are any questions, please contact this office.

Very truly yours,

Dan J. Alpert
