September 18, 2006

2253-1

Federal Communication Commission
and other interested parties:

This is to verify and certify that on this date, September 15, 2006, I verified the orientation of a Shively antenna for WWOT radio station (100.1mHzFM).

The antenna was placed on a tower at Wopsononock Mountain, North of Altoona, Blair County, Pennsylvania, and was positioned of an Azimuth of 345° on True North, as per figure 2 as found in attached Shively Labs Report of Test 6810-3R-DA, and based on Global Positioning System data collected at the site.

Andrew H. Ebersole, P.L.S.

Licensed Land Surveyor No. 039396E
