Re: NM Licensing LLC  
WSGW(AM), Saginaw, Michigan  
Facility Identification Number: 22674  
Special Temporary Authority (STA)  
BESTA- 20140729ABY

Dear Mr. Teslik:

This is in reference to the request filed on July 29, 2014. NML requests further extension of the STA granted on January 9, 2012, to operate with parameters at variance from licensed values and or reduced power while maintaining monitor points within licensed limits.<sup>1</sup> In support of the request, NML states that the license application BMML-20140522AGW has been filed and remains pending with the Commission.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WSGW may continue to operate with parameters at variance from licensed values and/or reduced power while maintaining monitor points within licensed limits. It will be necessary to further reduce power or cease operation if complaints of interference are received. NML must notify the

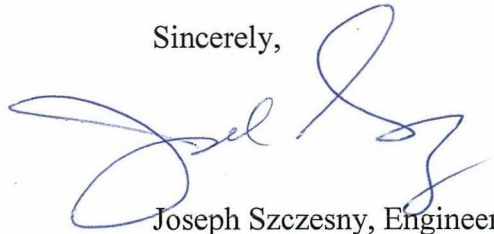

---

<sup>1</sup> WSGW is licensed for DA operation on 790 kHz using 5 kW day and 1 kW night.

Commission when licensed operation is restored.<sup>2</sup> NML must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CER § 1.1310.

This authority expires on **February 21, 2015**.

Sincerely,

Joseph Szczesny, Engineer  
Audio Division  
Media Bureau

cc: Dean Goodman, CEO, NML
