File no.: BMPDTT-20110711AGO

Dear Applicant:

Within 30 days from the date of this letter, file an amendment to resolve the deficiency that was discovered during the initial review of your application. Amendments must be filed electronically. Failure to amend your application will result in the dismissal of the application.

Specifically, the proposed tower height increase of 9.1 meters requires coordination and approval with the FAA.

The above determination is based on the overall tower height above ground level as indicated in the proposed construction permit of 59.4 meters verses the overall tower height above ground level as indicated in the antenna registration search results of 50.3 meters.

Sincerely

Hossein Hashemzadeh
Deputy Chief
