Directional Antenna Installation Certification

In compliance with FCC Regulation 73.316, section (c), paragraph (2)(vii), and to satisfy condition #4 of the WGIB Construction Permit (BPED-20000622AFR), this is to certify that the Shively model 6016-1/3-DA directional panel antenna for Radio Station WGIB operating at 91.9 MHz and licensed to Birmingham, AL, has been erected according to design and installation instructions provided by Shively Labs or Bridgton, ME.

The installation was supervised by Randall L. Mullinax, Regional Engineering Services Manager of Clear Channel Radio who was retained by the licensee of WGIB to supervise the installation of the directional antenna. Mr. Mullinax is a graduate of the Southern College of Technology with a degree in Electrical Engineering Technology, has been actively engaged in Broadcast Engineering for more than thirty years, and his works are a matter of record with the Federal Communications Commission.

Date: January 3, 2003
