In re: NEW(FM), Aberdeen, WA
BNPFT-20130304ACN
Facility ID # 143946

Dear Applicant:

This refers to the above-captioned application for a new FM translator station in Aberdeen, Washington.

A review of the proposal reveals that it is in violation of 47 C.F.R. Section 73.1204. Specifically, the proposed 100 dBu interfering contour overlaps the 60 dBu protected contour of the licensed facility of K265DP, Aberdeen, WA (BLFT-20030912AAU). The applicant recognizes this overlap and indicates that "...there is no population or inhabitable structure within the 100 dBu contour of the proposed facility...." However, the applicant fails to address the potential interference to drivers on the nearby State Highway 101 that passes within the 100 dBu contour. From the applicant's own exhibits, it appears that over 2 kilometers of Highway 101 pass through the area within the proposed 100 dBu contour. Therefore, the application will be dismissed.

Accordingly, application BNPFT-20130304ACN IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw
Deputy Chief
