

**APPLICATION FOR STATION LICENSE**  
**MILLER COMMUNICATIONS INC.**  
**W255BD FM TRANSLATOR STATION**  
**CH 255D - 98.9 MHz - 0.25 kW**  
**DARLINGTON, SOUTH CAROLINA**  
**April 2010**

**TECHNICAL STATEMENT**

This Technical Statement was prepared on behalf of Miller Communications, Inc. ("MCI"), licensee of FM translator station W255BD, Channel 255D, Darlington, South Carolina. MCI has a construction permit (BPTF-20091020ABC) to make minor changes to the W255BD facilities. MCI herein submits a license application to cover the outstanding permit. Attached as Exhibit A is a calculation of the transmitter power output for FM translator W255BD.

There are two special operating conditions/restrictions listed on the W255BD permit. The first condition states, "Prior to commencing program test operations, FM Translator or FM Booster permittee must have on file at the Commission, FCC Form 350, Application for an FM Translator or FM Booster Station License, pursuant to 47 C.F.R. Section 74.14." This application satisfies this condition.

The second condition states that MCI must reduce the power of W255BD, or cease operation, to insure persons with access to the site are not exposed to radio frequency radiation levels in excess of the FCC's guidelines. MCI states that it will, in cooperation with other tower users, reduce the power of W255BD or cease operation, as necessary, to insure that persons having

access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines. Based on the foregoing, it is believed all conditions on the W255BD construction permit have been satisfied.
