

WSKG Public Broadcasting
P.O. Box 3000
Binghamton, New York 13902
(607) 729-0100
Attn: Gary Reinbolt, CEO

Dear Mr. Reinbolt

This letter will serve as a document needed to fulfill one of the conditions of the construction permit for WSKG-FM.

Partial proof of performances as defined by part 73.154(a) of the FCC Rules and Regulations were conducted both before and after the erection of the WSKG-FM facility as authorized in Permit File Number BPED-20030110ACU. The results indicate no adverse effects by the new WSKG-FM facility on the directional pattern of WNBF. It can be concluded therefore the new facility has in no way distorted the directional pattern of WNBF.

Sincerely,

A handwritten signature in cursive script that reads "Larry Hodge".

Chief Engineer, WNBF Radio
