## **ENGINEERING STATEMENT**

### **IN SUPPORT OF APPLICATION FOR LPTV CLASS A CONSTRUCTION PERMIT**

**MINOR MODIFICATION OF CONSTRUCTION PERMIT**  
**WDLP-CA, FCC ID 9425**  
**FCC FILE NUMBER BPTTA-20031230ABD**  
**WDLP BROADCASTING COMPANY, LLC**

**Minor modification of construction permit.** The within application is filed as a minor modification to construction permit seeking a change in location, antenna height above ground level and ERP. Because the move is a short distance, the 74 dBu contour of the construction permit and the within proposal are almost exactly contiguous.

**OET 69 Interference analysis.** The following is submitted as an OET 69 Longley-Rice study exhibit for the above-captioned application. The analysis was performed using Techware FCC Longley-Rice study software as run on the Sun computer.

Stations which exhibit contour overlap or short spacing and thus must be studied are:

CALLSIGN AND LOCATION	FCC FILE NUMBER
WLRNTV (17-) Miami	BLET19930216KG
WLRN-DT (20) Miami	BLEDT20030311AEF
WTCE (21-) Fort Pierce	BLET19900510KE
WCLF-DT.CP (21) Clearwater	BPCDT19991101AHE
WFOR-DT.CP (22) Miami	BMPCDT20010416AAH
WFOR-DT (22) Miami	BLCDT20011023ABS
WLTN (23-) Miami	BLCT19950710KF

Interference shown to all stations listed above was less than 0.5% Accordingly, waiver of §§74.705 and 74.706 as appropriate is requested.

WSBS-CA (21Z) Miami, Etc. BLTTL19980715JE

With respect to the above facility, please see Joint ownership statement following.

**Joint ownership.** WSBS-CA and the within proposal are part of a coordinated enterprise by the same business entity. In the course of processing, mutual interference may be shown between the facilities. WSBS-CA has filed a displacement application which, when constructed, will eliminate that interference. Accordingly, waiver of §74.707 as appropriate is requested.
