August 20, 1997

To Whom It May Concern:

This is to certify that I oversaw the installation of the directional antenna array at WYFW-FM, Winder, Georgia. The antenna system was installed pursuant to the manufacturer's instructions, oriented to the proper azimuth, and is operating within licensed parameters.

My qualifications include an engineering degree in electronics from the Pennsylvania College of Technology - Pennsylvania State University and 16 years of experience in broadcast engineering.

Respectfully submitted,

Ronald L. Muffley
Director of Engineering
