DECEMBER	6:00	0.3162	500.0	NONE

APRIL--Follow MARCH parameters until advanced time begins.  
OCTOBER--Follow NOVEMBER parameters as soon as advanced time ends.

This notice and its parameters supersede any previous Pre-Sunrise authority. If these parameters are lower than those previously authorized, the power must be reduced within 30 days of receipt of this letter or PSRA must be terminated. PSRA operation may be resumed on completion of the reduction.

#### CALCULATION OF ANTENNA INPUT POWER

-----

The nominal power listed is not necessarily the same as the Antenna Input Power. To determine the Antenna Input Power permitted during PSRA; multiply the INPUT POWER listed on the station authorization by the SQUARE of the ANTENNA CURRENT CONVERSION FACTOR. The Antenna Current or Common Point Current permitted during PSRA is obtained by multiplying the ANTENNA CURRENT CONVERSION FACTOR by the AUTHORIZED ANTENNA CURRENT or COMMON POINT CURRENT.

#### NATURE OF AUTHORITY GRANTED

-----

PSRA is secondary to the basic instrument of authorization with which it is to be associated. The PSRA may be suspended, modified, or withdrawn by the FCC without prior notice or right to hearing, if necessary to resolve interference conflicts, to implement agreements with foreign governments, or in other circumstances warranting such action. Moreover, the PSRA does not extend beyond the term of the basic authorization.

#### NOTIFICATION PROCEDURE

-----

PSRA operation under this authorization may commence immediately upon submission of the following information:

1. Licensee name, station call sign and location
2. Indication that such PSRA operation is intended by the station
3. A description of the method whereby any necessary power reduction will be achieved.

Send to:

Federal Communications Commission

In Re: WION(AM), Ionia, MI  
Facility Identification Number: 39533  
Packer Radio WION, LLC  
Request for Presunrise/Postsunset Authority

Dear Mr. Angus:

This is in regard to your letter of November 14, 2005, which requested recalculation of presunrise and postsunset operating power for Station WION(AM), pursuant to Section 73.99 of the Commission's rules.

We have calculated the permissible operating power for presunrise operation, and the authorization is enclosed. However, because Station WION is licensed as a Class B station, with operating power in excess of 250 watts during nighttime hours, it does not qualify for postsunset operation. *See* Section 73.99 of the Commission's rules.

Sincerely,

Charles N. Miller, Engineer  
Audio Division  
Media Bureau
