Re: MDCL Waiver
 Station WARL (AM)
 Facility ID No. 65197
 Attleboro, MA

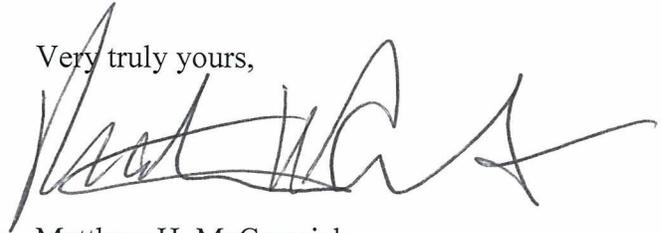

Dear Ms. Dortch

The ADD Radio Group, Inc., licensee of Station WARL (AM) Facility ID No. 65197, Attleboro, Massachusetts, wishes to implement Modulation Dependent Carrier Level (MDCL) technology, and hereby requests a waiver of Section 73.1560(a) of the Commission's rules.

Station WARL utilizes a Nautel XR6 transmitter. Nautel's Dynamic Carrier Control (DCC) exciter has been installed and configured in strict adherence to the manufacturer's instructions. Further, the Nautel XR6 transmitter has been modified in strict accordance with the DCC instruction manual. All testing of the system was done with the transmitter operating into a dummy load, and the system is now in bypass mode, pending favorable consideration of this waiver request and receipt of a modified station license indicating grant of this waiver.

Technical questions should be directed to Leo Sullivan (WARL's chief engineer) at 781-879-0998. If any other questions arise, please contact me.

Very truly yours,

Matthew H. McCormick
Counsel for
The ADD Radio Group, Inc.
