

APPLICATION FOR STATION LICENSE
FAMILY WORSHIP CENTER CHURCH, INC.
K250BQ FM TRANSLATOR STATION
CH 250D - 97.9 MHZ - 0.25 KW
CAMDEN, ARKANSAS
September 2016

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Family Worship Center Church, Inc. (“Family Worship”), licensee of FM translator W256CX, Channel 256D, Dunn, Louisiana. Family Worship has a construction permit to make minor changes in the W256CX facilities (BPFT-20160322AAD). This permit changes the W256CX transmitter’s location, channel, call sign, and power. This instant application seeks a license to cover the outstanding permit. The new call sign is K250BQ, which will be used hereafter in this application. Exhibit A is a calculation of the transmitter power output for FM translator K250BQ.

There are four special operating conditions/restrictions listed on the K250BQ permit.

The first condition states:

“ This construction permit authorizes the mounting of an antenna on the nondirectional tower of the AM station identified below. During the installation of the antenna, the AM station shall determine operating power by the indirect method (see Section 73.51 of the Commission's Rules). Upon completion of the antenna installation, antenna impedance measurements on the AM antenna shall be made. If the resistance of the AM antenna has changed by more than 2 percent from the licensed value (see Section 73.45(c)(1) of the Commission's Rules), an application for the AM station to return to direct power measurement, including a tower sketch of the installation, shall be filed with the Commission by the AM station licensee using form FCC 302-AM. (See Section 1.30003 of the Commission's Rules.) The permittee must submit confirmation of completion of the requirements of this condition in the application for license to cover this construction permit.

KNHD(AM), CAMDEN, AR, 1450 KHZ”

During installation of the translator’s antenna, KNHD was notified of this condition and determined operating power by the indirect method. Exhibit B is a copy of the 302-AM

application for return to direct power measurement for KNHD, including a tower sketch as required by this condition.

The second condition states:

“Pursuant to Revitalization of the AM Radio Service, First Report and Order, 30 FCC Rcd 12145, 12153 para. 16 (2015), the permittee/licensee and any successor in interest (licensee) shall be subject to the following restrictions. From the grant of the construction permit and continuing until the facility has achieved four years of on-air operations rebroadcasting the primary AM station identified on this authorization, the licensee may NOT change such primary station being rebroadcast by this translator, nor may it rebroadcast another station when the primary station identified on this authorization is silent. Periods of station silence shall not count toward the fulfillment of this four-year requirement. During this same four-year period the licensee may not assign or transfer the construction permit/license to another party, unless it is to the licensee of the AM station identified on this authorization or unless such assignment or transfer provides for the continuing right of the primary station to rebroadcast on the translator. Minor modifications of this authorization are permitted, provided that the translator will continue to rebroadcast the AM station for which the modification was granted.”

Family Worship is aware of this condition and pledges compliance.

The third condition states:

“The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.”

Family Worship has verified that signs have been placed in proximity to the tower in use and pledges compliance with this condition.

The fourth condition states:

“Prior to commencing program test operations, FM Translator or FM Booster permittee must have on file at the Commission, FCC Form 350, Application for an FM Translator or FM Booster Station License, pursuant to 47 C.F.R. Section 74.14.”

This application satisfies that condition.

Based on the foregoing, it is believed that Family Worship has complied with all conditions and can operate K250BQ in accordance with Commission’s rules.
