

## CONTINGENT APPLICATIONS EXHIBIT

The present application is one of four related, simultaneously filed applications submitted for processing under Section 73.3517(e) of the Commission's Rules (the contingent application rule). There are two Form 301 applications requesting minor modifications to the facilities of Stations KFWA(FM), Parker, Colorado and KRWZ(AM), Denver, Colorado and two FM translator applications requesting minor modifications to Stations K276FL, Colorado Springs, Colorado and K276FK, Pinecliffe, Colorado. The KFWA application proposes to change city of license from Parker to Weldona, Colorado and the KRWZ application proposes to change the community of license from Denver to replace the service at Parker. The two translator applications are technically contingent on each other and are contingent on the relocation of Station KFWA. The application process and the subsequent construction and implementation is being coordinated by WAY MEDIA, Inc. ("WAY"), which is the licensee/permittee of Stations KFWA(FM) and K276FL and by Lincoln Financial Media Company of Colorado ("Lincoln"), licensee of Stations KRWZ and K276FK. The contingent application rule requires that the contingent minor modification applications be accompanied by a copy of the agreement to make coordinated facility modifications. *See* 47 C.F.R. § 73.3517(e). The agreement is attached.

WAY and Lincoln hereby requests that the Commission process the four modification applications together, and take action on both applications simultaneously.
