

### **Proposed Use of Translator**

Applicant is the permittee of two FM translators in Huron, CA, call sign K269FA and K265EE, respectively. K269FA, the translator being modified in the present application, was originally intended to operate as a fill-in translator and rebroadcast Applicant's own FM Station KZLA, which is also licensed to Huron. However, due to a change in circumstances, Applicant is now proposing to use K269FA to rebroadcast Station KOKO-FM in Kerman, CA, licensed to Big Broadcasting, Inc. Applicant has no interest in or connection with Station KOKO-FM or its licensee Big Broadcasting, Inc.

Originally, Applicant intended to rebroadcast KOKO-FM on its other FM translator authorized for Huron, station K265EE. However, K265EE will now be used to rebroadcast a different full-power FM station, which will be selected by Applicant prior to its filing of a Form 350 application to cover the construction of the permit for K265EE.
