Re: Tucker Station Road
Antenna Location

To Whom It May Concern:

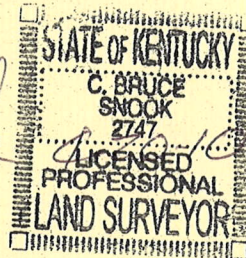

I hereby certify that HDR Engineering, Inc. performed a field survey on April 13, 2010 to determine the orientation of an antenna on a tower located at the southwest corner of the site at 3007 Tucker Station Road. From the measurements taken at the time of the survey, I have determined the azimuth of the antenna to be 303 degrees 28 minutes based on Kentucky State Plane Coordinates, North Zone, NAD83, Grid North.

Sincerely,

HDR Engineering, Inc.

C. Bruce Snook, P.L.S. 2747
Project Manager
