Dear Application:

The staff has under consideration the above-captioned application for commercial FM Station WRUW.

A review of the application, as amended on April 20, 2001, reveals that WRUW failed to comply with one of the special operating conditions on Construction Permit BPED-970114MA.<sup>1</sup> Accordingly, WRUW must amend its application to provide an engineer's certification that the directional antenna was properly installed based on the manufacturer's specifications.

Further action on this application will be withheld for thirty days from the date of this letter to provide you an opportunity to reply. Failure to respond within thirty days of the date of this letter will result in the dismissal of the application pursuant to Section 73.3568(b). Please note that any amendment must be submitted in the same manner as the original application.

Sincerely,

Rodolfo F. Bonacci  
Supervisory Engineer  
Audio Services Division  
Mass Media Bureau

<sup>1</sup> Condition #3 states: BEFORE PROGRAM TESTS ARE AUTHORIZED, permittee/licensee shall submit an affidavit that the installation of the directional antenna system was overseen by a qualified engineer. This affidavit shall include a certification by the engineer that the antenna was installed pursuant to the manufacturer's instructions and list the qualifications of the certifying engineer.
