Clear Channel Communications, Inc.
Raleigh, N.C.

Project: Radio Antenna Direction – WKSL 93.9 FM (tower located in Apex, N.C.)

Fred :

Elingburg Land Survey Co. certifies, based on field measurements performed this date, 4/11/08, that the above radio antenna is oriented correctly per installation drawing # 009A62701, produced by Dielectric and provided by your office. The direction of the antenna, as measured by north azimuth and rounded to the nearest ½ degree, is 48 degrees – 30 minutes.

Sincerely,

Russ Elingburg

Russ Elingburg, President (PLS – 3414)
