WNWN is third adjacent to the proposed facility. It has a 65.62 dBu F(50,50) signal at the proposed site. The associated interfering contour is 105.62 dBu F(50,10) which goes 132.42 meters. The distance to the nearest structure (other than the transmitter building) is 188.251 meters (see photo). Therefore there is no population within the interfering contour and the no-population waiver for third adjacent facilities can be invoked.
