In re: KRBG(FM), Umbarger, TX
Grace Community Church of Amarillo
Facility ID No.: 93643
BPED-20181203AAA

Dear Applicant:

This letter refers to the above-captioned minor change application, filed by Grace Community Church of Amarillo ("Grace"), for noncommercial educational FM Station KRBG(FM) to increase the effective radiated power and change from Channel 204C3 to Channel 204C2.

An engineering study of the application reveals that the proposal is in violation of 47 C.F.R. § 73.509 with respect to the licensed facility (BLED-19980511KD) of FM Station KVAS(FM), Borger, Texas (Facility ID No. 72171) on Channel 204C3. Specifically, the proposed 40 dBu interfering contour would cause prohibited overlap to the 60 dBu protected contour of Station KVAS. In addition, the proposed 60 dBu protected contour would receive prohibited overlap from the 40 dBu interfering contour of Station KVAS. In the application, Grace argues that the proposal fully protects a granted construction permit facility (BPED-20180629AAQ) of Station KVAS and, once those facilities are built and licensed, the overlap will be eliminated. However, because Grace's application was not filed contingent with the KVAS construction permit, as required by 47 C.F.R. § 73.3517(e), KRBG's proposed facility must continue to protect the licensed facility of Station KVAS.

In light of the above, Application File No. BPED-20181203AAA is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED.¹ This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

Arthur E. Doak
