TECHNICAL STATEMENT

1. This technical statement and attached exhibits were prepared on behalf of CMP KC Licensing, LLC (“CMP KC”) and CMP Houston KC, LLC (“CMP Houston”) in support of an application to transfer control of Cumulus Media Partners, LLC (“CMP”).¹ As such, a Radio Market Analysis is necessary. CMP KC is the licensee of KMJK, Channel 297C, North Kansas City, Missouri, and KCHZ, Channel 239C1, Ottawa, Kansas. CMP Houston is the licensee of KCMO, 710 kHz, and KCMO-FM, Channel 235C0, Kansas City, Missouri²; KCJK, Channel 286C1, Garden City, Missouri; and KCFX, Channel 266C0, Harrisonville, Missouri. Cumulus Licensing LLC (“Cumulus”)³ is the licensee of KQTP, Channel 275C2, St. Marys, Kansas; KDVV, Channel 262C⁴ KWIC, Channel 257C3, KMAJ, 1440 kHz and KTOP, 1490 kHz, Topeka, Kansas; and the permittee of a new FM station on Channel 244C3 at Humboldt,

¹ CMP KC and CMP Houston are indirect wholly-owned subsidiaries of CMP.

² KCMO-FM has a construction permit to change its community of license from Kansas City, Missouri to Shawnee, Kansas at the existing KCMO-FM site (BPH-20070531APM). KCMO-FM will remain a metro station in the Kansas City market when the city of license change is implemented.

³ Cumulus is an indirect wholly-owned subsidiary of Cumulus Media Inc. (“CMI”). CMI is the Manager and currently holds a 25% membership interest in CMP.

⁴ KDVV has a construction permit to increase to a minimum Class C facility (BPH-20070320ABX) at its existing site. Since the licensed city grade contour is completely encompassed by the permit contour, only the permit will be considered in this study.

Nebraska (“CP”)⁵ for which an application is pending to change to Channel 245C2 at Effingham, Kansas (“Effingham”).

2. The proposed city of license change for KCMO-FM from Kansas City to Shawnee, Kansas, will not change the metro status of the facility. It will remain a metro station in the Kansas City market. KMJK, KCMO, KCMO-FM, KCJK and KCFX are also licensed to metro counties in the Kansas City market. KCHZ is not licensed to a metro county in any Arbitron market. However, the station is considered “home” to the Kansas City, Missouri Arbitron Market. KQTP, KDVV, KWIC, KMAJ and KTOP are all licensed metro counties in the Topeka, Kansas Arbitron Market. Effingham, Kansas, the proposed community of license for the new FM on 245C2.

KANSAS CITY, MISSOURI-KANSAS ARBITRON/BIA MARKET REVIEW

3. Exhibit #1 is a tabulation of the commercial and non-commercial AM and FM stations in the Kansas City, Missouri/Kansas Arbitron Market (Market #30). The tabulation shows there are forty-five stations, including six subject stations (KMJK, KCHZ, KCMO, KCMO-FM, KCJK and KCFX). The number of stations depicted falls in the forty-five or more stations tier of §73.3555(a)(1)(i) of the Commission’s rules. At this level, common ownership or control of

⁵ BMPH-20071119ADF proposes to relocate the new FM on Channel 244C3 at Humboldt, Nebraska to Channel 245C2 at Effingham, Kansas. Cumulus has also filed a Petition for Rule Making requesting the allotment of Channel 272C3 at Humboldt, Nebraska, as a replacement channel at Humboldt. Under no circumstance would the New FM at Humboldt and Channel 272C3 both be operational. As such, the proposed replacement channel at Humboldt will not be considered further, as it does not overlap with any other attributable stations. Further, the Humboldt CP does not overlap with any other attributable station, as such it is only considered as a relocated facility at Effingham, Kansas.

up to eight stations, with no more than five in the same service, is permissible. Therefore, the proposed transferees are in compliance in the Kansas City, Kansas-Missouri market.

TOPEKA, KANSAS ARBITRON/BIA MARKET REVIEW

4. Exhibit #2 is a tabulation of the commercial and non-commercial AM and FM stations in the Topeka, Kansas Arbitron Market (Market #194). The tabulation shows there are sixteen stations, including the five subject stations (KQTP, KDVV, KWIC, KMAJ and KTOP). The number of stations depicted falls in the fifteen to twenty-nine stations tier of §73.3555(a)(1)(iii) of the Commission's rules. At this level, common ownership or control of up to six stations, with no more than four in the same service, is permissible. Therefore, the proposed transferees are in compliance in the Topeka, Kansas market.

REVISED CONTOUR OVERLAP ANALYSIS

5. Attached as Exhibit #3 is a map depicting the city grade contours of the commonly-owned facilities. As shown on Exhibit #3A, there is no contour overlap between KWIC and Effingham. Based on these facilities and their respective city grade contours, four distinct overlap markets are created. Market #1 consists of AM station KCMO and FM stations KCMO-FM, KCJK, KCFX, KCHZ and KMJK. Market #2 consists of AM stations KMAJ and KTOP and FM stations New FM at Effingham, KCHZ, KQTP and KDVV (license and CP). Market #3 consists of AM station KCMO and FM stations New FM Effingham and KCHZ. Market #4

consists of AM station KMAJ and KTOP and FM stations KCHZ, KWIC, KQTP and KDVV.

6. A study has been conducted to determine if ownership of these facilities complies with §73.3555 of the Commission's rules. In Market #1 the contours of KCMO-FM, KCJK and KCFX are encompassed by the contours of KCMO, KCHZ and KMJK. Therefore, the city grade contours of KCMO, KCHZ and KMJK define the Radio Market #1 boundary. In Markets #2, #3 and #4 the city grade contour of KCHZ is a subject station in each market. Therefore, its contour defines the Radio Market boundary. In each market we will determine the number of contributing stations which have sites within, or provide city grade service to, the respective Radio Market boundary. To this total, we will then add the subject stations in the respective market to demonstrate compliance with the rules. Only those stations with transmitter sites within 92.0 kilometers will be considered as contributors to the market. No other station in which the proposed transferees have interests will be considered, unless it is a subject station in the market under review.

7. Exhibit #4A is a depiction of the AM stations serving Radio Market #1 and Exhibit #4B is a depiction of the FM stations serving the market.⁶ Exhibit 5 is a tabulation of the stations in the Market #1, which, including the six subject stations, totals forty-six stations. The number of stations in the Radio Market falls in the forty-five or more station tier of §73.3555(a)(1)(i) of the Commission's rules. At this level, common ownership or control of up to eight stations, with

⁶ There are numerous other stations in the market. They were not considered, however, as there were a sufficient number of stations to allow for common ownership of the stations under study.

no more than five in the same service, is permissible. As such, Market #1, consisting of AM station KCMO and FM stations KCMO-FM, KCJK, KCFX, KCHZ and KMJK, is in compliance with the Commission's rules.

8. Exhibit #6 is a depiction of the AM and FM stations serving Radio Markets #2, #3 and #4. A total of eleven stations are depicted. Exhibit #7 is a tabulation of the stations in Radio Market #2, which, including the six subject stations, totals seventeen stations. The number of stations depicted falls in the fifteen to twenty-nine stations tier of §73.3555(a)(1)(iii) of the Commission's rules.⁷ At the fifteen to twenty-nine stations level, common ownership or control of up to six stations is allowed, with no more than four in the same service. As such, Market #2, consisting of AM stations KMAJ and KTOP and FM stations New FM at Effingham, KCHZ, KQTP and KDVV (license and CP), is in compliance with the Commission's rules.

9. Exhibit #8 is a tabulation of the stations in Market #3, which, including the three subject stations, totals fourteen stations. The number of stations depicted falls in the fourteen or fewer stations tier of §73.3555(a)(1)(iv) of the Commission's rules.⁸ At the fourteen or fewer stations level, common ownership or control of up to five stations is allowed, with no more than three in the same service, provided the number to be commonly held does not exceed 50% of the stations in the market. As such, Market #3, consisting of AM station KCMO and FM stations New FM Effingham and KCHZ, is in compliance with the Commission's rules.

⁷ See Footnote 6, *supra*.

⁸ See Footnote 6, *supra*.

10. Exhibit #9 is a tabulation of the stations in Market #4, which, including the six subject stations, totals seventeen stations. The number of stations depicted falls in the fourteen or fewer stations tier of §73.3555(a)(1)(iv) of the Commission's rules.⁹ At the fourteen or fewer stations level, common ownership or control of up to five stations is allowed, with no more than three in the same service, provided the number to be commonly held does not exceed 50% of the stations in the market. As such, Market #4, consisting of AM station KMAJ and KTOP and FM stations KCHZ, KWIC, KQTP and KDVV, is in compliance with the Commission's rules.

11. Based on the compliance shown in both rated and non-rated markets, the proposed transferees are in compliance with the Commission's rules. Therefore, the proposed transfer of control is in compliance with §73.3555 of the rules, with regard to the markets reviewed.

12. The foregoing technical statement was prepared on behalf of CMP KC Licensing, LLC and CMP Houston-KC, LLC by Graham Brock, Inc., its Technical Consultants. All information contained herein is true and accurate to the best of our belief and knowledge. All data relating to AM and FM facilities was extracted from the CDBS database. Data regarding the relevant Arbitron market was determined using the BIA MEDIA Access Pro Version 4.2. We assume no liability for errors or omissions in those databases which may be adverse to the information contained herein.

⁹ See Footnote 6 *supra*.
