Syracuse, NY 13204

Re: WWLF-FM, Oswego, New York
WOLF Radio, Inc.
Facility Identification Number: 5344
Special Temporary Authority
BESTA-20151013AAD

Dear Licensee:

This is in reference to the request filed October 13, 2015, on behalf of WOLF Radio, Inc. (“WRI”). WRI requests a seventh extension of the special temporary authority (“STA”) granted on February 8, 2012, to operate Station WWLF-FM with emergency antenna facilities pursuant to Section 73.1680.¹ In support of the request, WRI indicates that it is now working toward completing the facility authorized by construction permit BPH-20130916AAH (granted September 24, 2013) before the expiration date of the construction permit.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

¹ WWLF-FM is licensed for operation on Channel 244A (96.7 MHz) with effective radiated power of 3 kilowatts (H&V) and antenna height above average terrain of 100 meters.

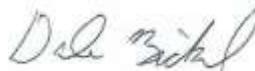

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WWLF-FM may continue to operate with the following facilities:

| | |
|---------------------------|---|
| Geographic coordinates: | 43° 28' 36" N, 76° 16' 44" W (NAD 1927) |
| Channel | 244 (96.7 MHz) |
| Effective radiated power: | 1.4 kilowatts (H&V) |
| Antenna height: | |
| above ground: | 104 meters |
| above mean sea level: | 111 meters |
| above average terrain: | 104 meters |

WRI must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **April 18, 2016**. Extension of this STA is not contemplated past the September 24, 2016 construction permit expiration date.

Sincerely,

Dale Bickel
Senior Engineer
