Re: Gold Coast Broadcasting, LLC (GCB)  
KKZZ (AM), Port Hueneme, CA  
Facility Identification Number: 25091  
Special Temporary Authority (STA)  
BESTA-20180308AAH

Dear Mr. Hearne:

This is in reference to the request filed on March 8, 2018. GCB requests a further extension of the STA granted on May 20, 2011, to continue operating with parameters at variance pending the filing of the required FCC Form 302 application to update all operating parameters due to repairs made over the past seven years.<sup>1</sup> In support of the request, GCB stated that it plans to file the application with a method of moments proof in order to move forward toward resumption of licensed operations.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED, and GCB may continue to operate with DA parameters at variance and/or reduced power if needed to maintain

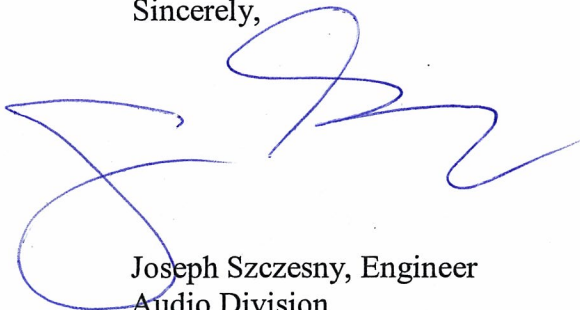

---

<sup>1</sup> KKZZ(AM) is licensed for DA operation on 1520 kHz using 10 kW day and 1 kW night.

monitor points within licensed limits. GCB must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **October 2, 2018**.

Sincerely,

A handwritten signature in blue ink, consisting of a large, stylized 'J' followed by a series of loops and a final flourish.

Joseph Szczesny, Engineer
