

## **Affidavit Certification and Qualifications of Supervising Engineer**

In support of FCC Form 302

WTNP, Richland, MI, FCC File Number BMPED-20080721AAH

The facility specified in the underlying construction permit is constructed as permitted in the current construction permit FCC File Number BMPED-20080721AAH. I have overseen all aspects of the WTNP site and directional antenna assembly and installation. I certify that the transmission systems and antenna systems are constructed as permitted. Shively Labs was the company employed to perform the proof of performance. The Aldena Model ALP0802712 directional antenna system was installed exactly as Shively Labs specified and the antenna orientation as specified by FCC permit and the manufacturer was measured and verified by a Licensed Professional Surveyor in the State of Michigan. The surveyor's certification is attached in an exhibit.

I certify, under penalty of perjury that I am a Broadcast Engineer and am familiar with all aspects of the FCC regulations that concern this project. My credentials are a matter of record with the Federal Communications Commission.
