

EXHIBIT 6

Character Issues

**Ronald Ulloa**

Ronald Ulloa, a member of Provo Broadcasting LLC, is the President, Treasurer, Secretary and Director of Rancho Palos Verdes Broadcasters, Inc. ("RPVB"), the licensee of Station KXLA(TV), Rancho Palos Verdes, California (Facility ID No. 55083). RPVB is the applicant, in FCC File No. BPCT-20010131ABS, for a construction permit for modification of the Station's facilities to a new tower site at the Mt. Wilson, California antenna farm. In connection with that application, a party allotted the same channel for its DTV operations has filed an Informal Objection to the modification application. Among the allegations contained in the Informal Objection is one claiming that RPVB engaged in misrepresentations in connection with the engineering portion of its application dealing with the proposed coverage by the Station's broadcast signal of its community of license. RPVB has advised the Commission that it has not engaged in any misrepresentation dealing with the coverage issue as there was an ample basis to grant the requested modification based on Commission precedent and the absence of a preferential location in Los Angeles and, further, that RPVB had, in fact, on two separate occasions, brought the unusual coverage characteristics attendant to service of its community of license and the Los Angeles area to the Commission's attention.

**Caroline K. Powley**

In April 1998, Ms. Powley, a member of Provo Broadcasting, LLC, filed a petition to deny an application seeking to transfer control of station W54BT, Roanoke, Virginia, from Mr. Eleazer to James Pridemore (File No. BTCTT-980217IA). W54BT is a translator for WDRL-TV. Ms. Powley's petition to deny raised serious allegations about misconduct, including misrepresentations to the Commission, by Mr. Eleazer. After reviewing Ms. Powley's allegations, the Mass Media Bureau's Enforcement Division sent a letter of inquiry with regard to the matters raised. *See Letter to BIP, Inc. and Danville Television Partnership*, Ref No. 1800C1-KMS, 98110416 (Norman Goldstein, Chief, Complaints and Political Programming Branch, Enforcement Division, February 9, 1999). That letter of inquiry included questions as to whether Ms. Powley might have acquiesced to or condoned Mr. Eleazer's misconduct by failing to report it to the Commission in a timely and thorough manner. On April 12, 1999, Ms. Powley filed a response to the letter of inquiry. Thereafter, in letter decisions dated April 30, 2001, the Commission's staff found no misrepresentation or other disqualifying character defects. Both Ms. Powley and Mr. Eleazer filed petitions for reconsideration of the Commission's letter decisions, however, and those petitions remain pending.

In addition, Ms. Powley was the 50 percent member of B&C Kentucky, LLC, the prior licensee of WUPX(TV) (formerly WAOM(TV), Facility ID No. 23128, Morehead, Kentucky). The license for that facility was assigned to Paxson Lexington Licensee, Inc. upon approval by the Commission, File No. BALCT-20000228AAG. On April 18, 2000, Mr. Pridemore submitted an Informal Objection to the assignment application, which he later supplemented. Therein, he alleged that B&C Kentucky, LLC had made various misrepresentations with regard to its main studio and its children's television programming reports. By *Memorandum Opinion and Order and Notice of Apparent Liability for Forfeiture*, DA 01-1108, released April 30, 2001, the Commission's staff granted the assignment application and assessed a forfeiture based upon its findings of violations of the Commission's main studio rule, public file rule and station identification rule, but made no findings of any misrepresentation by B&C Kentucky, LLC. Thereafter, on May 30, 2001, Mr. Pridemore submitted a petition for reconsideration of that decision, and his petition remains pending.

#### Venture Technologies Group, LLC

The members of Venture Technologies Group, LLC have, from time to time, been parties to numerous broadcast applications, some of which may have been petitioned against or objected to by third parties, and some of such petitions or objections may have contained allegations (i.e., misrepresentation or lack of candor) relating to character. No member of Venture Technologies Group, LLC, however, has been party to an application dismissed or denied on character grounds.
