

RADIO MARKET ANALYSIS
WRIGHT BROADCASTING SYSTEM, INC.
KWEY-FM RADIO STATION
CLINTON, OKLAHOMA
KCDL RADIO STATION
CORDELL, OKLAHOMA
June 2006

TECHNICAL STATEMENT

1. This technical statement and attached exhibits were prepared of behalf of Wright Broadcasting Systems, Inc. ("WBS"), licensee of KWEY-FM, Channel 238C2, Clinton, Oklahoma and KCDL, Channel 257C3, Cordell, Oklahoma. WBS is submitting applications to make minor changes in the facilities of both KWEY-FM and KCDL; therefore, a multiple ownership analysis is needed. WBS is also the licensee of KCLI, 1320 kHz, Clinton, Oklahoma and KWEY, 1590 kHz, Weatherford, Oklahoma. KWEY-FM, KCDL, KWEY and KCLI are not licensed to metro counties in any Arbitron/BIA rated markets, and are not considered "home" to any rated market. The city grade contours of all four stations have a common area of overlap as indicated in Exhibit #1. As such, a revised contour overlap analysis is needed.

2. A study has, therefore, been conducted to verify that the ownership of these stations is in compliance with the Commission's multiple ownership rules. The city grade contours of the four subject stations will be used to determine the number of other contributing stations in the market and will be referred to hereafter as the "Radio Market Boundary". No stations with transmitters located more than 92.0 kilometers from the boundary of the common overlap of subject stations will be considered, nor will any WBS station be considered as a contributing station, unless it is a subject station in the market.

3. Exhibit #2 is a depiction of the AM and FM stations (commercial and non-commercial) providing service to the Radio Market. Exhibit #3 is a tabulation of the stations in the Radio Market, a total of eleven, including the four subject stations. The number of stations depicted falls in the fourteen or fewer stations tier of §73.3555(a)(1)(iv) of the Commission's rules. At this level, common ownership or control of up to five stations, with no more than three in the same service, is permissible provided the number of stations to be commonly held does not exceed 50% of the stations in the market. Based on this number of facilities, it has been herein demonstrated that the minor change applications for stations KWEY-FM and KCDL are in compliance with the Commission's multiple ownership rules.

4. The foregoing technical statement was prepared on behalf of Wright Broadcasting Systems, Inc., by Graham Brock, Inc., its Technical Consultants. All information contained herein is true and accurate to the best of our belief and knowledge. All data relating to AM and FM facilities was extracted from the CDBS database. We assume no liability for errors or omissions in that database which may be adverse to the information contained herein.
