THE UNIVERSITY OF
ALABAMA
COMMUNICATION

To Whom it may concern:

As a representative of the Board of Trustees of the University of Alabama, licensee of Television Station WUOA, DTV6, Tuscaloosa, Alabama, I have reviewed the application of WAY-FM Media Group, Inc. for modification to translator facility ID # 141129 which proposes operation on CH 210D inside the protected signal contour of WUOA-DT6.

We approve of any modification request of WAY-FM Media Group with the condition that any real-world interference experienced to the signal of WUOA-DT be addressed immediately by WAY-FM Media Group and entirely at their expense. WUOA-DT will cooperate with WAY-FM Media Group in identifying any signal complaints and in the remedy of the same or the Channel 210D translator will immediately cease operation.

Sincerely,

David M Baughn
