

Sainte 51, L.P.  
Post Office Box 4159  
Modesto, CA 95352

Gentlemen:

I understand that KCSO-LD intends to file an application for increasing maximum effective radiated power from 385 watts to 1.2 kilowatts (all other engineering parameters to remain as licensed).

As the permittee of KB4RC-D, Turlock, CA, I have no objections to a grant of the proposed Sainte 51 application.

Yours very truly,

  
Joseph Mori
