Re: FCC Construction Permit *BMPL-20150526AAA* for Facility ID: *196589*, Call Sign: *WNUC-LP*
, Detroit, MI

I, David Klann, hereby certify that the Propagation Systems, Inc. Model PSIML-2A-50WS-DA antenna for WNUC-LP, channel 244, 96.7MHz was installed according to the manufacturer's specification and instructions and in accordance with FCC Construction Permit BMPL-20150526AAA. I personally oversaw and participated in the antenna installation, and oriented the antenna components according to the surveyor's (Anthony L. Gonzalez, Giffels Webster) measurements and calculations. I have observed and measured the antenna installation and find it to be accurate and true to the best of my knowledge and belief.

My qualifications include the design, construction, and operation of NCE FM radio station WDRT, Channel 220, 91.9MHz, Viroqua, WI (FCC Facility ID 19753). FCC licensed broadcast engineer Michael Brown assisted with the installation via telephone and email conversations.

Sincerely,

A handwritten signature in blue ink, appearing to read "David Klann". The signature is stylized with a large, sweeping initial "D" and a cursive "Klann".

David J. Klann
