In re: Low Power Television Application of:
Wanda Rolon
Channel 48, Quebradillas, ETC, PR
File numberBMPDTA-20090824AJZ
Facility Id No.:48237

Dear Applicant:

We are currently processing your above-referenced application. Our preliminary engineering review reveals that your proposed facility does not comply with the Commission's interference rules. Specifically, the proposal is predicted to cause interference to the following facilities:

1. WVOZ-TV, Ponce, PR. – BMPCDT-20060707ADD
2. W49CZ-D, Aguada, PR – BDCCDTL-20061030ADH

In an exhibit filed with the application, it is indicated that in the licensee used the full service mask parameter to perform the analysis for the interference study. Since the full service mask is not part of our technical rules, we are no longer accepting or using the full service mask to perform our interference analysis. The stringent emission mask was used in our interference analysis as indicated in the proposed construction permit.

You are hereby given the opportunity to file a minor amendment to resolve these specified interference problems within (30) days from the date of this letter. Amendments must be filed electronically. If not so amended, your application will be considered incomplete and subsequently dismissed.

Sincerely

Hossein Hashemzadeh
Associate Chief
Video Division
Media Bureau
