

Dave Brawdy,
Chief Telecommunications Engineer
Washington State University
Pullman, WA

Dear, Mr. Brawdy

KHQ has reviewed the information you supplied to KHQ on 4/14/2008 it appears that any potential interference to KHQ-TV from the proposed changes to KRFA-FM located near Pullman, WA at Lat: N46:40:54 Lon: W116:58:13 operating on Channel 219 (91.7Mhz) with an Effective Radiated power of 28kW should be minimal. However, since the possibility does exist KHQ will ask that KRFA agree to comply with the following conditions.

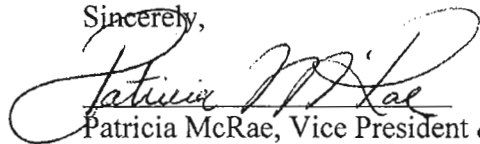

We hereby give our consent to the grant of your application subject to the following conditions:

1. Washington State University will promptly provide us with a copy of the application as filed with the FCC and any subsequent amendments to the technical portions of that application. We reserve the right to withdraw or modify this consent if we, in good faith, conclude that the application or any amendment poses a significant threat of interference to our viewers.
2. Washington State University agrees to promptly remedy any actual interference to Channel 6 viewers that results from the FM facilities as constructed. Washington State University will install suitable notch filters or take other steps that we agree are appropriate, to eliminate such actual interference.
3. Washington State University will provide KHQ with the phone number and email address of the responsible person to contact if KHQ should receive any complaints from viewers of interference to KHQ on Channel 6.
4. Washington State University will provide KHQ copies of any reception complaints that it receives, and a full description of the corrective action taken.

5. This letter only applies to the application information that Washington State University submitted to KHQ on April 14, 2008. Any future changes in operating parameters will require renewed consent from KHQ.

Please return a signed copy of this letter as your understanding and acceptance of its conditions.

Sincerely,

Patricia McRae, Vice President & GM
