Hossein & Mohammad:

IB has no objection to authorization of the STA listed below.

Thanks,
James

Subject: Quick Approval Request for BSTA-20100916ACU

Hello Jim,

My client, J. B. Salazar, filed for an STA (FCC File No. BSTA-20100916ACU) for KAXX-LP, Pipe Creek, TX on Thursday (channel 35 digital), while he waits for his pending KAXX-LP channel displacement to be granted. Since the nearest Mexican co-channel facility is located 256 kilometers away (Nuevo Laredo, TA, 35D, BPFS-20090331AHO), Mr. Salazar is hoping that the FCC International Bureau can approve the STA for its LPTV without sending it to Mexico for their approval in an effort to permit Mr. Salazar to begin operating the STA as quickly as possible.

Please let me know if you have any questions. Your consideration of the above request is very much appreciated and I look forward to your response.

Thank You and Best Regards,

Darryl
