File No. BNPL-20131104AAY

Dear Applicant:

The staff has under consideration the above-captioned application for a new low power FM (LPFM) station.

An engineering study has revealed that the proposed transmitter site specified in the application fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807. Specifically, the site proposed is located: 71.8 kilometers from the Channel 281C3 vacant allotment for Sanger, TX. The required spacing pursuant to § 73.807 is 78 kilometers. The application fails to address this defect.

Accordingly, in light of the above, application BNPL-20131104AAY is unacceptable for filing and IS **HEREBY DISMISSED**. This action is taken pursuant to 47 C.F.R. § 0.283 and 73.870(c).¹

Sincerely,

James D. Bradshaw
