

APPLICATION FOR STATION LICENSE
SIMPSONVILLE BROADCASTING, LLC
WGVC (FM) RADIO STATION
CH 292C3 - 106.3 MHZ - 25.0 KW
SIMPSONVILLE, SOUTH CAROLINA
November 2002

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Simpsonville Broadcasting, LLC (“SB”), licensee of radio station WGVC, Channel 292C3, Simpsonville, South Carolina. SB has an outstanding construction permit authorizing minor changes in the facilities of WGVC (BPH-20020830AAM). This instant application seeks a license to cover the outstanding permit. Attached as Exhibit A is a calculation of the transmitter output power for WGVC.

There was a lone condition on the WGVC construction permit. The condition stated that an Electronics Research, Inc., three bay antenna (FCC/EPA Type #3) was specified in the application for construction permit and was used to certify compliance with the RFR exposure guidelines. As denoted on this instant license application, SB is using an ERI SHPX-3AE system, which complies with the condition. As such, WGVC is operating pursuant to automatic program test authority.
