

APPLICATION FOR STATION LICENSE
MEDIACOM, INC.
W293AK FM TRANSLATOR STATION
CH 293D - 106.5 MHZ - 0.045 KW
RIPLEY, WEST VIRGINIA
May 2010

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Mediacom, Inc. ("MI"), licensee of FM translator station W293AK, Channel 293D, Ripley, West Virginia. MI has a construction permit (BPFT-20100203ACK) to make minor changes to FM translator W293AK. MI herein submits a license application to cover the outstanding permit. Attached as Exhibit A is a calculation of the transmitter power output for FM translator W293AK.

There are two special operating conditions/restrictions listed on the W293AK permit. The first condition states that an application for station license, FCC Form 350, must be on file prior to commencing program tests with the facilities authorized in the permit. The submission of this instant application satisfies the condition.

The second condition states that MI will reduce the power of W293AK or cease operation to insure persons with access to the site are not exposed to radio frequency radiation levels above the limits. MI states that it will, in cooperation with other tower users, reduce the power of W293AK or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines. Based on the foregoing, it is believed all conditions on the W293AK construction permit have been satisfied.
