In Re: BLCDT-20090928AKO
KIMO-DT
Anchorage, AK
Facility Id: 13815

Dear Applicant:

This letter refers to the above-captioned application for license to cover construction permit (BMPCDT-20041027ADG) for digital television (DTV) station KYUR-DT, Anchorage, AK.

The staff's initial review of your application revealed that the operating parameters are inconsistent with the authorized ERP. There is a discrepancy in the calculation of the ERP. Thus, final processing of your application has been delayed.

It is not Commission policy, and we do not believe the public interest is served thereby, to allow a television station to operate on program test authority indefinitely. Therefore, you are directed to submit an amendment to your license application to correct the above-referenced problem. Your failure to resolve the problem within 30 days from the date of this letter may result in the dismissal of your pending license application. If the latter action is necessary, you will no longer have authority to operate station KABY-DT and you will be required to cease operations. Hopefully, this action can be avoided by your prompt response to our request.

Sincerely,

Kevin R. Harding
Associate Chief
Video Division
Media Bureau
