Dear Applicant:

This letter refers to the above-captioned construction permit modification application.

An engineering study reveals that the facility specified in the application fails to meet the minimum spacing requirement of 47 C.F.R. § 73.207 with respect to second-adjacent vacant allotment for Knox City, TX. The required spacing pursuant to 47 C.F.R. § 73.207 is 31 kilometers while the actual spacing proposed in the application is 6.2 kilometers. This short-spacing constitutes an acceptance defect. The short-spacing was not acknowledged in the application.

Pursuant to Section 73.3522 of the Commission's Rules<sup>1</sup>, "... an applicant whose application is found to meet the minimum filing requirements but nevertheless is not complete and acceptable shall have the opportunity in the 30-day period specified in the FCC staff's deficiency letter to correct all deficiencies in the tenderability and acceptability of the underlying application, including any deficiency not specifically identified by the staff." Additionally, Section 73.3564 of the Commission's Rules<sup>2</sup> states that "[a]pplications with uncorrected tender and/or acceptance defects remaining after the opportunity for corrective amendment will be dismissed with no further opportunity for amendment." See Appendix B in the Report and Order in MM Docket No. 91-347. This letter constitutes your opportunity for corrective amendment pursuant to Section 73.3522.

<sup>1</sup> 47 C.F.R. § 73.3522.

<sup>2</sup> 47 C.F.R. § 73.3564.

Further action on the subject application will be withheld for a period of thirty days from the date of this letter to provide the applicant an opportunity to respond. Failure to respond within this time period will result in the dismissal of the application for failure to prosecute pursuant to 47 C.F.R. § 73.3568(a)(1). Please note, any amendment must be submitted in the same manner as the original application.

Sincerely,
