By this exhibit, Mapleton License of Spokane, LLC (“Mapleton”) confirms that it complies with the FCC’s ownership rules under Section 73.3555(a) in its ownership of KGA(AM), Spokane, Washington (Facility ID No. 11234); KZBD(FM), Spokane, Washington (Facility ID No. 11243); KEYF(AM), Dishman, Washington (Facility ID No. 53148); KJRB(AM), Spokane, Washington (Facility ID No. 11235); KEYF-FM, Cheney, Washington (Facility ID No. 53147); KDRK-FM, Spokane, Washington (Facility ID No. 11242); and KBBD(FM), Spokane, Washington (Facility ID No. 36488).

The BIA Investing in Radio Market Report 2015 identifies 28 full-power, commercial radio stations as located within or “home” to the Spokane, Washington Metro Market. In addition, there are six non-commercial, educational FM stations licensed to Spokane, Washington. Under the Commission’s local radio ownership limits as set forth at 47 C.F.R. § 73.3555(a)(1)(iii), in a radio market with between thirty and forty-four (inclusive) full-power, commercial and noncommercial radio stations, a party may have a cognizable interest in up to seven full-power, commercial radio stations, of which four may be in the same service (AM or FM). After grant of this application, Mapleton will continue to have cognizable interests in seven full-power commercial radio stations in this Metro Market, of which four are in the FM service. Thus, grant of this application complies with the FCC’s local radio ownership rules under the Arbitron Metro Market methodology.
