Re: Radio Acquisition Corp. (RAC)
WMTN(AM), Morristown, TN
Facility Identification Number: 22338
Special Temporary Authority (STA)
BESTA- 20170412ABH

Dear Mr. Arnold:

This is in reference to the request filed on April 12, 2017. RAC requests an extension of the STA granted on February 12, 2016, to operate with parameters at variance pending the filing of the required FCC Form 302 applications for stations WMTN and WCRK.¹ In support of its request, RAC estimates it will complete all work and file both applications within the next six months due to the recent sale of the WCRK licensed site.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

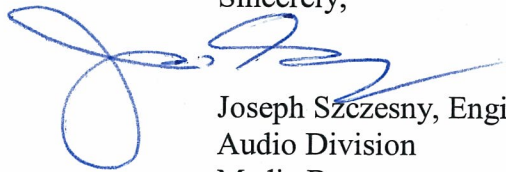

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

¹ WMTN(AM) is licensed for ND operation on 1300 kHz with 5 kW day and 0.096 kW night, and BP-20151005AAP corrects coordinate and height errors after tower construction in 2013.

Accordingly, the request for extension of STA IS HEREBY GRANTED, and RAC may continue to operate with parameters at variance from licensed values. It will be necessary to further reduce power or cease operation if complaints of interference are received. RAC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. RAC will need to file one final STA extension on the expiration date shown below (unless both 302 applications have been filed and granted).

This authority expires on **November 15, 2017**.

Sincerely,

A handwritten signature in blue ink, appearing to read 'J. Szczesny', with a large loop at the end.
