

307(b) EXHIBIT

Global News Consultants, LLC (“Global”), licensee of Station KYTS(FM), hereby submits this application which proposes to allot Channel 289C3 to Manderson, Wyoming as that community’s first local service. As demonstrated in the application, Channel 289C3 can be allotted to Manderson consistent with Section 73.207 of the Commission’s Rules. A 70 dBu signal can be provided to Manderson from the proposed reference coordinates.

Global desires to change KYTS’s community of license from Ten Sleep to Manderson under the guidelines set forth in *Amendment of the Commission’s Rules Regarding Modification of FM and TV Authorizations to Specify a New Community of License*, 4 FCC Rcd 3870 (1989), *recons. granted in part*, 5 FCC Rcd 7094 (1990). There, the Commission stated that a station may change its community of license without subjecting the license to other expressions of interest if (1) the proposed allotment is mutually exclusive with the current allotment; (2) the current community of license will not be deprived of its only local service; and (3) the proposed arrangement of allotments is preferred under the Commission’s allotment priorities. These criteria are met here. First, the proposed use of Channel 289C3 at Manderson is mutually exclusive with the original Channel 286C3 allotment at Ten Sleep. Second, Ten Sleep will not be deprived of potential local service because vacant Channel 267A will remain at Ten Sleep. Finally, the provision of a first local service to Manderson (U.S. 2000 Census pop. 104) under Priority 3, is preferred over (i) the retention of a potential second local service at Ten Sleep (U.S. 2000 Census pop. 304) under Priority 4, and (ii) the creation of gray area

to 25 persons under Priority 2, which as discussed below is *de minimis*.¹ See *Revision of FM Assignment Policies and Procedures*, 90 FCC 2d 88 (1982). The proposed changes will create a *de minimis* gray area of 25 persons in 233 sq. km.²

Manderson is not located in an Urbanized Area, and the proposed 70 dBu signal of the Station will not encompass any Urbanized Area. Therefore, this relocation does not implicate the Commission's policy against migration of stations from rural to urban areas. See *Faye and Richard Tuck*, 3 FCC Rcd 5374 (1988). Manderson enjoys the attributes that the Commission traditionally associates with a community. Manderson is identified in the 2000 U.S. Census and therefore is presumed to have the status of a community for allotment purposes. See *Arnold and Columbia, California*, 7 FCC Rcd 6302 (1992). Manderson is a town that was named after Charles Manderson in 1889. He was chief counsel for the Burlington Railroad. Manderson is home to several local businesses, churches, and schools, including Big Horn Truck & Equipment, Bonanza Valley Ranch, Cowboy Timber, Crowfoot Ranch, Foss Farms & Feedlot, Harmony Ranch Cottage, Hi Way Bar & Café, KCS Field Office, Lloyds Auction Services, Mountain West Telecommunications, Norwood River Hunt Club, Paint Rock Fencing,

¹ Under the FM allotment priorities, the creation of underserved area (Priority 2) and the provision of first local service (Priority 3) are considered coequal with the larger population prevailing. See *Silverton and Bayfield, Colorado*, 14 FCC Rcd 21502 (1999); *Littlefield, Wolfforth and Tahoka, Texas*, 12 FCC Rcd 3215 (1997). A comparison of Manderson's population of 104 outweighs the grey area of 25 persons. See *Littlefield, supra*.

² The Commission has held in numerous cases that the creation of a loss area with a small numbers of people is *de minimis*. See *Eldorado, Mason, Mertzon and Fort Stockton, Texas*, DA 07-61 (2007) (the provision of a first aural service to 124 persons was *de minimis*); *Freer, Hebronville, and Orange Grove, Texas*, 19 FCC Rcd 4742 (2004) (the provision of a first aural service to 178 persons was *de minimis*); *Wallace, Idaho and Big Fork, Montana*, 19 FCC Rcd 15267 (2004) (the provision of a first aural service to 55 persons and the creation of an underserved area consisting of 150 persons were *de minimis*); *Sparta and Buckhead, Georgia*, 16 FCC Rcd 2169 (2001) (the creation of underserved area consisting of 124 persons was *de minimis*); *Seabrook, Texas, et al.*, 10 FCC Rcd 9360 (1995) (the provision of a second aural service to 455 persons was *de minimis*).

Rairden Motor Company, Whiting Petroleum, and Wind River Seed. Manderson is the site of the Manderson Oil Field, which provide jobs to the community of Manderson. The Manderson Elementary School and Cloud Peak Middle School are both located in Manderson. Among the government offices located in Manderson are the Manderson Town Hall, Big Horn Rural Fire District, and the U.S. Post Office. Manderson has its own zip code (82432). *See* Exhibit 1.
