In re: Request for Experimental
Authority
CC Licenses, LLC
WGY, Schenectady, NY
Facility ID No.: 153299

Dear Mr. Langham:

The staff has under consideration the request for experimental authority to permit WGY to operate with modulation-dependent carrier level control (MDCL), according to procedures described in a Media Bureau *Public Notice*.¹ The experimental authority is requested pursuant to 47 C.F.R. § 73.1510 for a period of one year.

The letter request states that WGY will use the MDCL capability supplied with the station's Nautel NX-50 transmitter. Use of MDCL technology requires a waiver of 47 C.F.R. § 73.1560(a) to permit reduction of unmodulated carrier power to levels below 90 percent nominal carrier power.

Accordingly, the requested experimental authority described above IS HEREBY GRANTED. This experimental authority expires on **May 8, 2013**. Any request for extension of this authority should be filed at least thirty days prior to this expiration date.

Sincerely,

Ann Gallagher
Audio Division
Media Bureau
