

TECHNICAL STATEMENT  
RADIO MULTIPLE OWNERSHIP ANALYSIS  
CLEAR CHANNEL BROADCASTING LICENSES, INC.

This statement and the attached figures were prepared on behalf of Clear Channel Broadcasting Licenses, Inc. ("CBL"), a licensee subsidiary of Clear Channel Communications, Inc. ("CCC"). CBL proposes to modify the facilities of WCKT(FM), Port Charlotte, FL. A multiple ownership analysis was prepared considering the following radio stations under present or proposed common ownership, time brokerage or joint sales:<sup>1</sup>

Table 1: Proposed Commonly Owned, Brokered or Jointly-Sold Stations  
Studied and Associated Arbitron Metro<sup>2</sup> Information

Calls	Fac ID	Band	Community	County	State	Geographic Arbitron Market	Declared Arbitron Market
WAMR	3060	AM	VENICE	Sarasota	FL	Sarasota-Bradenton, FL	Sarasota-Bradenton, FL

WBTT	55756	FM	NAPLES PARK	Collier	FL	Ft. Myers-Naples-Marco Island, FL	Ft. Myers-Naples-Marco Island, FL
WCVU	71594	FM	SOLANA	Charlotte	FL	non-metro	non-metro

Since certain of these stations have overlapping principal community contours (5 mV/m for AM stations, 3.16 mV/m for FM stations), or are located in, or home to, the same Arbitron Metro Markets, an ownership study has been prepared in accordance with the Federal Communications Commission's local radio ownership rule.<sup>3</sup>

CCC does not have an attributable interest in any other station with a principal community contour that overlaps or intersects the principal community contour of WCKT(FM) as proposed, or which is located in the same

<sup>1</sup> None of the following stations are attributable by virtue of a time brokerage agreement or joint sales agreement.

<sup>2</sup> Arbitron data presented herein is obtained from BIA's "Media Access Pro."

<sup>3</sup> See 47 C.F.R. § 73.3555(a).

Arbitron Metro<sup>4</sup> as WCKT(FM). The community of license of WCKT(FM) is not located within any Arbitron Metro, but WCKT(FM) is reported by BIA as being "Home" to the Ft. Myers-Naples-Marco Island, FL Metro. Contour overlap of the station to be modified, as depicted in Figure 1, also occurs with commonly-owned stations whose communities of license are located in the nearby Sarasota-Bradenton, FL Arbitron Metro market, and commonly-owned stations whose communities of license are not located within any Arbitron Metro market.

#### Arbitron Market Study

WCKT(FM) is reported by BIA as being "Home" to the Ft. Myers-Naples-Marco Island, FL Arbitron Metro. This proposal is in compliance with the local radio ownership rules for that Arbitron Metro, as evidenced by Table 2 below:

Table 2 - Stations Considered to be in the  
Ft. Myers-Naples-Marco Island, FL Arbitron Metro<sup>5</sup>

### Interim Contour-Overlap Analysis

Because the community of license of the station to be modified is not located within an Arbitron Metro, and the proposed principal community contour of the station to be modified intersects a station under common ownership or attribution, an interim contour-overlap analysis is also set forth in this statement.

### Interim Contour-Based Radio Markets

A "radio market" under the interim contour-overlap method is the area encompassed by the mutually overlapping principal community contours of the stations under common-ownership or attribution. Here, such mutually overlapping contours form four "radio markets" for interim contour-overlap analysis under the Commission's rules.

#### Radio Market 1

"Radio market 1" is defined by the mutually overlapping principal community contours of WCKT(FM)-App, WIKX(FM), WBCG(FM), WSRZ-FM, WCCF(AM), WKII(AM) and WAMR(AM). The predicted principal community contours of these stations (3-AM / 4-FM), as well as other stations whose principal community contours overlap this combination, are shown in *Figure 2*. *Figure 3* is the tabulation of some of the radio stations identified in this contour-overlap "radio market."

#### Radio Market 2

"Radio market 2" is defined by the mutually overlapping principal community contours of WCKT(FM)-App, WCVU(FM), WIKX(FM), WBCG(FM), WCCF(AM)

and WKII(AM). The predicted principal community contours of these stations (2 AM / 4 FM), as well as other stations whose principal community contours overlap this combination, are shown in *Figure 4*. *Figure 5* is the tabulation of some of the radio stations identified in this contour-overlap "radio market."

### Radio Market 3

"Radio market 3" is defined by the mutually overlapping principal community contours of WCKT(FM)-App, WOLZ(FM), WCVU(FM), WIKX(FM), WCCF(AM) and WKII(AM). The predicted principal community contours of these stations (2 AM / 4 FM), as well as other stations whose principal community contours overlap this combination, are shown in *Figure 6*. *Figure 7* is the tabulation of some of the radio stations identified in this contour-overlap "radio market."

### Radio Market 4

"Radio market 4" is defined by the mutually overlapping principal community contours of WCKT(FM)-App, WOLZ(FM), WIKX(FM), WBTT(FM) and WDRR(FM). The predicted principal community contours of these stations (5 FM), as well as other stations whose principal community contours overlap this combination, are shown in *Figure 8*. *Figure 9* is the tabulation of some of the radio stations identified in this contour-overlap "radio market."

### Count of Stations in Defined Markets

The number of radio stations in a contour-overlap "radio market" is determined by counting the operating stations having principal community contours which overlap or intersect the principal community contours which define the radio market, plus the subject commonly owned or attributable stations, excluding any stations whose transmitter sites are further than 92 kilometers from the perimeter of mutual overlap, and excluding any commonly owned or attributable stations that do not serve to define the market.

In the interim contour-overlap "radio market 1" studied herein, there are at least 50 radio stations, including the subject co-owned stations, which overlap or intersect with the defined "radio market." *Figure 3* is the tabulation of some of the radio stations identified in this contour-overlap "radio market".

In the interim contour-overlap "radio market 2" studied herein, there are at least 46 radio stations, including the subject co-owned stations, which overlap or intersect with the defined "radio market." *Figure 5* is the tabulation of some of the radio stations identified in this contour-overlap "radio market".

In the interim contour-overlap "radio market 3" studied herein, there are at least 49 radio stations, including the subject co-owned stations, which overlap or intersect with the defined "radio market." *Figure 7* is the tabulation of some of the radio stations identified in this contour-overlap "radio market".

In the interim contour-overlap "radio market 4" studied herein, there are at least 47 radio stations, including the subject co-owned stations, which

overlap or intersect with the defined "radio market." *Figure 9* is the tabulation of some of the radio stations identified in the contour-overlap "radio market".

Only known licensed, operating radio stations were included in this tabulation. Distances to contours for AM stations were predicted using the antenna patterns as identified in the Commission's AM database and the appropriate Ground Wave Field Strength versus Distance Graph of 47 C.F.R. § 73.184. Ground conductivities were obtained from FCC Figure M3. Distances to the FM contours were determined based on the method of 47 C.F.R. § 73.313. Terrain data was derived from the N.G.D.C. 30 second computer database for each of the FM stations using radials spaced every 45 degrees of azimuth.

### Conclusions

In the Arbitron Metro Market studied herein, there are at least 36 radio stations, including the subject commonly-owned 4-FM stations, which are home to the Ft. Myers-Naples-Marco Island, FL Metro. This proposal does not affect the existing number of commonly-owned stations in the subject Arbitron Metro.

In the interim contour-overlap "radio market 1" studied herein, there are at least 50 stations, including the commonly-owned 3-AM / 4-FM stations. In the interim contour-overlap "radio market 2" studied herein, there are at least 46 stations, including the commonly-owned 2-AM / 4-FM stations. In the interim contour-overlap "radio market 3" studied herein, there are at least 49 stations, including the commonly-owned 2-AM / 4-FM stations. In the interim contour-overlap "radio market 4" studied herein, there are at least 47 stations, including the commonly-owned 5-FM stations.

Based on the above, it is concluded that the proposed modification complies with Section 73.3555(a) of the FCC Rules.

Respectfully submitted,

Stephen G. Davis  
SVP, Technical and Capital Management  
October 15, 2004
