

**ENGINEERING STATEMENT**  
**OF**  
**JOHN F.X. BROWNE, PE**  
**IN SUPPORT OF**  
**APPLICATION FOR DIGITAL TELEVISION BROADCAST**  
**Station License**  
**WXXI-DT**  
**Rochester, NY**

**Background**

WXXI Public Broadcasting Council (WXXI) is the licensee of WXXI-TV, CH21, serving Rochester, NY and also holds a construction permit for WXXI-DT, CH16, (BPEDT-19990114KF, Facility ID. # 57274). WXXI is now applying for a station license for WXXI-DT pursuant to the Commission's rules. The constructed facility is different from the underlying construction permit in that it uses a directional antenna with a slightly different radiation pattern and has an HAAT that is one meter higher.

**Antenna**

The antenna that was specified in the construction permit is a Dielectric TFU-18GTH-R C170. This antenna was replaced during construction with a Dielectric TFU-16DSB-M because of installation issues. This replacement antenna has a cardioid pattern which generally mimics the authorized pattern but is slightly different in several azimuths. Since the relative field pattern exceeds the original pattern slightly and the HAAT is one meter higher, the ERP has

**B**

been reduced from 200 kW to 180 kW so that the authorized 41dBu F(50,90) contour is not exceeded in any direction and the ERP does not exceed the authorized values in any direction. The new antenna patterns and a relative field/dBk table are included as Exhibit 1a-d and Table #1. The antenna is side mounted thus there is no change in the overall height of the supporting structure. A map comparing the authorized contour and the as-constructed 41 dBu F(50,90) contour is included as Exhibit 2. As can be seen from this map, the as-constructed contour does not exceed that authorized in the construction permit in any direction.

**Conclusion**

In all respects other than the variations described above the facility has been constructed in accordance with the terms of the construction permit.

**Certification**

I hereby certify that the foregoing report or statement was prepared by me but may include work performed by others under my supervision or direction. The statements of fact contained therein are believed to be true and correct based on personal knowledge, information and belief unless otherwise stated; with respect to facts not known of my own personal knowledge, I believe them to be true and correct based on their origin from sources known to me to be generally reliable and accurate. I have prepared this document with due care and in accordance with applicable standards of professional practice.

John F.X. Browne, P.E.
