

RADIO MARKET ANALYSIS
SEA-COMM, INC.
WBNE RADIO STATION
TOPSAIL BEACH, NORTH CAROLINA
February 2006

TECHNICAL STATEMENT

1. This technical statement and attached exhibits were prepared on behalf of Sea-Comm, Inc. ("Sea-Comm"), licensee of station WBNE, Channel 229A, Wrightsville Beach, North Carolina. Sea-Comm is submitting an application for WBNE to implement a change in community of license for the station to Topsail Beach, North Carolina. As such, a radio market analysis is necessary. WBNE's new community of license, Topsail Beach, North Carolina is not located in any metro county within an Arbitron/BIA rated market. Presently, WBNE is licensed to a metro county in the Wilmington, North Carolina Arbitron Market (Market #170). It is anticipated that, following implementation of service at Topsail Beach, WBNE will be considered "home" to the Wilmington Market. Therefore, a hybrid ownership analysis will be conducted, for both rated and non-rated markets.

2. Sea-Comm also has interests in stations WLTT, Channel 292A, Shallotte, North Carolina; WBNU, Channel 279C3, Shallotte, North Carolina; and WWTB, Channel 280A, Topsail Beach, North Carolina. Sea-Comm also has an agreement in place with the licensee of WUIN, Channel 294A, Carolina Beach, North Carolina, under a Local Marketing Agreement. WLTT, WBNU and WUIN are all licensed to communities located in metro counties within the Wilmington, North Carolina market. WWTB is considered "home" to the market. It is noted

that WWTB, in MB Docket #05-16, was ordered to change community of license to Swansboro, North Carolina, thus removing the station from the Wilmington, North Carolina market.

WWTB, by virtue of its new community of license, will be included in the Greenville-New Bern-Jacksonville, North Carolina Market.¹ Additionally, in the same docket, WBNU was ordered to change to Wrightsville Beach, North Carolina and, as such, remains a station located in the Wilmington Market. Therefore, both WWTB and WBNU will be considered located in their respective new communities of license for this instant review.

ARBITRON/BIA MARKET REVIEW

3. As shown on Exhibit #1, there are twenty-five AM and FM (commercial and non-commercial) stations listed in the Wilmington, North Carolina Arbitron Market.² Sea-Comm would be in control of four FM stations in the market, assuming the removal of WWTB to the Jacksonville, North Carolina Arbitron market. The number of stations indicated falls in the fifteen to twenty-nine stations tier of §73.3555(a)(1)(iii) of the Commission's rules. At this level, common ownership or control of up to six stations, with no more than four in the same service, is permissible. Therefore, control of WBNE in the Wilmington, North Carolina market is believed to be in compliance with the Commission's radio ownership rules for rated markets.

REVISED CONTOUR OVERLAP REVIEW

4. A study has, therefore, been conducted to verify that the ownership of WBNE, licensed to a non-metro county, yet being considered "home" to a rated market, is in compliance

1) This is the only station in which Sea-Comm has interests in the Greenville-New Bern-Jacksonville, North Carolina market.

2) With the deletion of WWTB, there will be twenty-four stations.

with the Commission's multiple ownership rules. A map showing the Sea-Comm stations is attached as Exhibit #2. As noted on the map, only the contours of the proposed WBNE and the proposed WBNU have an overlap of contours. As a result of the overlap, a single distinct radio market is created. The city grade contours of WBNE and WBNU will be used to determine the number of other contributing stations in the market, the Radio Market Boundary. No stations with transmitters located more than 92.0 kilometers from the boundary of the common overlap of subject stations will be considered. Nor will any Sea-comm stations be considered as a contributing station, unless it is a subject station in the market under review.

4. Exhibit #3 is a depiction of the AM and FM stations (commercial and non-commercial) providing service to the WBNE/WBNU Radio Market. Exhibit #4 is a tabulation of the stations in the Radio Market, which including the two subject stations, brings the total of stations in the Radio Market to ten. The number of stations depicted falls in the fourteen or fewer stations tier of §73.3555(a)(1)(iv) of the Commission's rules.³ At this level, common ownership or control of up to five stations, with no more than three in the same service, is permissible provided the number of stations to be commonly held does not exceed 50% of the stations in the market. Based on this number of facilities, it has been herein demonstrated that the Radio Market is in compliance.

5. As a result of the compliance shown above, in both rated and non-rated markets, the relocation and change of community of license for WNBE is in compliance with the Commissions rules.

3) There are other stations providing service to the market, however, the ones indicated were sufficient to demonstrate compliance based on the number of stations to be commonly held.

6. The foregoing technical statement was prepared on behalf of Sea-Comm, Inc., by Graham Brock, Inc., its Technical Consultants. All information contained herein is true and accurate to the best of our belief and knowledge. All data relating to AM and FM facilities in the relevant BIA/Arbitron market was determined using the BIA Financial Network, Inc. Media Access Pro, Version 4.0. BIA database. All other data was extracted from the CDBS database. We assume no liability for errors or omissions in either database which may be adverse to the information contained herein.
