

**Request for Special Temporary Authority  
Station KXPZ  
Exhibit 4  
March 2016**

Pursuant to Sections 73.1560(d) and 73.1635(a) of the Commission's rules, station KXPZ notifies the Commission that as of February 5, 2016, it has been operating at reduced power, and seeks special temporary authority ("STA") to operate at that power. The reduced power was necessitated by the failure of transmission line on February 1, 2016. Currently the station is operating at approximately 10.0% of its authorized power with 10 kW ERP, and a transmitter power output of 4.6 kW.

The station is hereby requesting special temporary authority ("STA") to continue to operate at reduced power with an ERP of 10 kW and transmitter power output of 4.6 kW for 180 days. KXPZ currently anticipates that it will receive the necessary replacement equipment and install it within 90 days.

Grant of this STA request will further the public interest by allowing the station to continue to provide power-limited broadcast service to the public while it remedies its equipment failure.
