

**ENGINEERING STATEMENT OF JAMES D. SADLER
IN SUPPORT OF A REQUEST FOR
SPECIAL TEMPORARY AUTHORITY
STATION WSPZ - BETHESDA, MARYLAND
570 kHz – 5 kW-D, 1 kW-N, U, DA-2
Facility ID: 11846**

Licensee: Red Zebra Broadcasting Licensee, LLC

I am a Technical Consultant, an employee in the firm of Carl T. Jones Corporation, with offices located in Springfield, Virginia. My education and experience are a matter of record with the Federal Communications Commission.

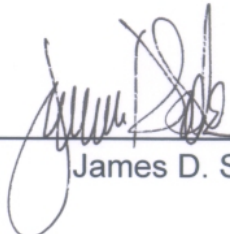

This office has been authorized by Red Zebra Broadcasting Licensee, licensee of AM Broadcast Station WSPZ, Bethesda, Maryland, to prepare this engineering statement in support of a request for Special Temporary Authority (STA). Station WSPZ is licensed for operation on 570 kilohertz with power of 5 kilowatts during daytime hours and 1 kilowatt during nighttime hours employing a different directional antenna pattern during day and night (DA-2). Station WMAL, Washington, DC, has a construction permit, FCC File No. BP-20151008AAI, to co-locate at the WSPZ transmitter site. During the WMAL construction it will be necessary for WSPZ to operate with reduced power employing a non-directional antenna and/or with directional antenna parameters at variance as necessary to maintain station operation and protect workers from exposure to radiofrequency radiation in excess of the Commission's exposure guidelines. Special Temporary Authority (STA) is requested for non-directional

operation during daytime and nighttime hours and/or daytime and nighttime directional parameters at variance during the WMAL construction. Non-directional operation will be with up to 25 percent of the licensed daytime (1,250 Watts) and nighttime (250 Watts) power levels.

This statement was prepared by the undersigned and the information contained herein is believed to be true and correct.

DATED: September 6, 2017

James D. Sadler
