Re: Second Interference Complaint and Reply to Opposition  
W295CG (FID 141545), Lake Bluff, Illinois  
Ref. 1800B3-PPD

Ms. Dortch,

Polnet Communications, Ltd. (“Polnet”), by its counsel, hereby files this second interference complaint against W295CG, Lake Bluff, IL (FID 141545) (“Second Complaint”) and replies to the Opposition dated April 21, 2017 (“Opposition”) filed by MB Capital Management, LLC’s (“MBCM”) counsel. Polnet is the licensee of W296DA, Vernon Hills, IL (FID 157668) (the “Station”). MBCM is the licensee of W295CG.

Polnet filed its initial interference complaint against W295CG on March 27, 2107 (the “First Complaint”). In the First Complaint, Polnet explained that W295CG’s unlicensed operations on 107.1 were causing actual interference to Polnet’s listeners. Section 74.1203(a)(3) of the Commission’s rules provide that “an authorized FM translator...will not be permitted to continue to operate if it causes any actual interference to... [t]he direct reception by the public of the off-the-air signals of...previously authorized and operating FM translators.” The Station was authorized and operating prior to W295CG.

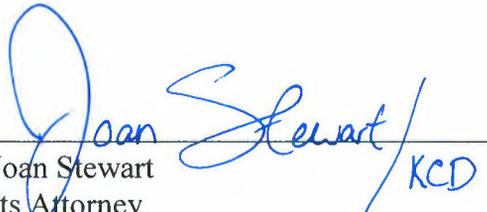

On April 20, 2017, the Audio Division issued a letter to MBCM requiring it to resolve the interference W295CG is causing to Polnet’s listeners. Polnet now files this Second Complaint to provide additional complaints from viewers that continue to receive interference from W295CG’s operations on 107.1. Statements from these listeners are attached at Exhibit 1. Polnet respectfully requests that the Audio Division direct MBCM to resolve these additional interference complaints or immediately cease operating on 107.1. Polnet notes that MBCM has at long last—and over a month after Polnet documented its operation on this frequency—filed a license application to cover its construction permit for 107.1 (FCC File No. BLFT-

20170414AAC). Polnet will file an objection to this license application based on the interference its operations are causing to the Station's listeners.

Polnet, by this letter, also responds to the nonsensical Opposition filed by MBCM's counsel on April 21, 2017. In the Opposition, MBCM notes that Polnet has filed an application to modify the Station, and therefore MBCM considers Polnet's complaint moot. MBCM is flatly wrong as a matter of law. W295CG is causing actual interference to the Station's licensed operations. Whether Polnet modifies the Station in the future has no bearing on whether MBCM must resolve the current interference. Polnet's complaints are not moot and MBCM must resolve the interference caused by its station immediately or cease operating.

POLNET COMMUNICATIONS, LTD.
