

MULTIPLE OWNERSHIP EXHIBIT

The FCC's television duopoly rule permits a single entity to directly or indirectly own, operate or control two television stations in the same Designated Market Area ("DMA") if:

- 1) there is no Grade B contour overlap between the commonly owned stations, or
- 2) at the time the application to acquire the station(s) is filed, no more than one of the is ranked among the top four stations in the DMA, based on the most recent all-day (9 a.m.–midnight) audience share, as measured by Nielsen Media Research or by any comparable professional, accepted audience ratings service, and at least 8 independently owned and operating full-power and noncommercial stations will remain in the DMA following the acquisition.

This application seeks consent to the assignment of license of television station KUCW, Ogden, Utah from High Plains Broadcasting License Company, LLC to Nexstar Broadcasting, Inc.. Simultaneously with the submission of this application, Newport Television License, LLC and Nexstar are submitting an application for consent to the assignment of license for television station KTVX, Salt Lake City, Utah from Newport to Nexstar. KTVX and KUCW are both located in the Salt Lake City DMA. Therefore, upon consummation of this transaction, Nexstar will have an attributable interest in KTVX (an ABC-affiliated station) and KUCW (a CW-affiliated station). Based on the most recent all-day audience share data for the 2011-2012 TV season published by Nielsen Media Research, KUCW is not ranked among the top-four stations in the DMA. In addition, as shown on the next page, 17 independent full-power television stations will remain in the DMA after consummation of the transaction.

Post Acquisition Market Ownership
